

# VOLTAGE DETECTORS COMPACT VOLTAGE DETECTOR

 **sofamel**

## Compact voltage detector - Medium Voltage Optical

Voltage presence is indicated by three red flashing LEDs.  
Self-checking device incorporated by inside piezoigniter.  
It works with no battery.  
Indoor use by included compact insulating pole.  
Insulating pole as per RD 614/2001 directive.

### Mod. PEKE-5/36

### Detector with pole

- Rated voltage: 5 to 36 kV
- Frequency: 50 Hz / 60 Hz
- Telescopic insulating pole included
- Total extended length with to voltage detector is 82 cm
- Total length closed 34 cm
- Supplied with carrying bag to transport the voltage detector suitable for belt fixing

Code	Ref.
640104	PEKE-5/36

1. Electrode
2. Body and Label
3. Red LED (Voltage presence)
4. Test button
5. Pole
6. Do not place hands above this point
