

VOLTAGE DETECTORS ANALOG VOLTAGE DETECTORS

sofamel

Analog voltage detector with pole - Medium Voltage Optical

Voltage presence is indicated by LED. Self-checking device incorporated by inside piezoigniter.
It works with no battery.
Indoor use by insulating pole according rated voltage of the detector.
End fitting to the pole by Universal type.

Mod. VT-5/36-P

Detector with pole

- Rated voltage: 5 to 36 kV
- Frequency: 50 Hz / 60 Hz
- Insulating pole 1,25 m (included)
- Supplied with carrying bag for pole and rigid plastic box to store and transport the voltage detector

Code	Ref.
640103	VT-5/36-P

Mod. VT-5/66-P

Detector with pole

- Rated voltage: 5 to 66 kV
- Frequency: 50 Hz / 60 Hz
- Insulating pole 2 m (included)
- Supplied with carrying bag for pole and rigid plastic box to store and transport the voltage detector

Code	Ref.
640105	VT-5/66-P
