

# EARTHING AND SHORT - CIRCUIT EQUIPMENT

## UNIPOLAR EARTHING EQUIPMENT

Mod. PATF-MPU

Unipolar earthing equipment

Single phase earthing equipment. It has a MPU/B or MPU/H clamp which allows the earthing connection of the lines for repair operations.

### Composed of:

- 1 MPU aluminium alloy clamp closing by screw and bayonet fixing (MPU/B) or hexagonal -12 (MPU/H). For cylindrical conductors with diameter between 4 mm and 30 mm.
- 1 copper cable with PVC insulation of 50 mm<sup>2</sup> section and 7 m long.
- 1 TT-38A self-milling earth lathe.
- 1 carrying bag to store and transport the equipment.
